PROFESSIONAL SUMMARY

Computer Science Engineering (AI & ML) student who builds and ships working projects end-to-end — from a deployed Telugu voice cloning app to tools in daily use by a real user. Strong in Python and data handling, with a solid grounding in data structures, algorithms, and databases. Eager to apply hands-on Python and AI/ML skills in a practical, learning-focused internship.

EDUCATION

Talla Padmavathi College of Engineering

Expected April 2028

Bachelor of Technology, Computer Science Engineering (AI & ML) • GPA: 7.64/10.0

- Relevant Coursework: Data Structures & Algorithms, Operating Systems, Computer Architecture, Database Management Systems, Automata Theory & Compiler Design

TECHNICAL SKILLS

- Data Structures & Algorithms:** Actively solving DSA problems across array, string, and graph patterns (LeetCode)
- Languages:** Python (OOP), Java (OOP), JavaScript (ES6+)
- Systems & Backend:** Django, REST API design, FastAPI, PostgreSQL, MySQL
- AI/ML & Frontend:** PyTorch (CUDA), Transformers, Google Gemini API, librosa • HTML5, CSS3, React.js
- Tools:** Git & GitHub, VS Code, PyCharm, Jupyter Notebook

PROJECTS

[Telugu Voice Cloning Pipeline \(IndicF5\)](#) Python, FastAPI, Modal, Transformers, CUDA 2026

- Generates natural-sounding Telugu speech in a user's own voice from text, using AI4Bharat's IndicF5 speech model.
- Users upload a voice sample directly and get it cloned; served through a FastAPI backend deployed on Modal.
- Fixed a Transformers 5.0 compatibility bug to get the model running on GPU.

[Audio Segment Tool](#) JavaScript, Web Audio API, FastAPI, Render 2026

- Browser tool that splits long audio recordings by timestamp, built for my father, a professional translator.
- Runs fully in the browser, so there are no uploads and no file-size limit; speed-optimised for large files.
- Live on Render and used daily, replacing a manual workflow.

[Personal Portfolio](#) HTML, CSS, JavaScript 2026

- Responsive personal website showcasing my projects, skills, and contact details.
- Built mobile-first with CSS animations and semantic HTML.

LEADERSHIP & ACTIVITIES

Google Gemini Student Ambassador

March 2026 – September 2026

Communique • Internship

- Selected as a Gemini Student Ambassador to promote hands-on AI use among students at my college; planned events including a Music Night and live Gemini demos.
- Shared AI use cases and event recaps through regular LinkedIn posts.
